PRODUCT DESCRIPTION

Natural light from the sun and sky has a balanced spectrum, rendering colors perfectly. However, most

artificial bulbs emit light in only a narrow scope of the visual spectrum. Aero-Tech's FULL element (neodymium oxide) mixed directly into the glass which has a natural filter to diffuse the dull yellow/green portions of the spectrum. This produces truer more natural colors and has been found to have a positive effect on how people perceive their surroundings. Great for pets and plants, too!
